

**FOR IMMEDIATE RELEASE**

**Indiana Office Opened to Support Naval Surface Warfare Center Crane**

**Virginia Beach, VA – 29 July 2009** - ICI Services Corporation announced today the opening of a new office in support of the Naval Surface Warfare Center (NSWC) Crane Division. The office is located in the WestGate @ Crane Technology Park in Odon, Indiana, at 13923 East Capt WJ Nelson Drive.

ICI Services Chief Operating Officer, Mike Denny believes that this is just the beginning of an expanding presence in support of NSWC Crane, "Our engineering and program support experience and capabilities are a great match for serving the Warfare Center's growing technical requirements. We look forward to becoming an integral part of the local community and to expand our role in support of NSWC Crane's mission areas."

NSWC Crane, one of the Naval Surface Warfare Centers, located in Crane, Indiana, is a shore command of the United States Navy under the Naval Sea Systems Command headquartered in Washington D.C. The focus of NSWC Crane is harnessing the power of technology for the Warfighter. They specialize in full life cycle support in three mission focus areas: Special Missions, Strategic Missions, and Electronic Warfare/Information Operations.

ICI Services, is an 8(a) certified Small Disadvantaged and Service-Disabled Veteran-Owned Business providing engineering, logistics, environmental, range and base operating services to the United States Navy, Army, and Department of Homeland Security. Headquartered in Dumfries, Virginia, and founded in 1999, ICI Services has grown to over 300 employees in locations in 14 states.
